Indore, Madhya Pradesh, India

SUMMARY

Software Engineer and Front-End Developer with hands-on professional experience building responsive, cloud-hosted web applications using JavaScript, React.js, HTML5, CSS3, and Tailwind CSS. Experienced in translating Figma and Google Stitch designs into production-ready interfaces, integrating REST APIs, implementing authentication workflows, debugging UI issues, and optimizing web performance. Backend fundamentals in Node.js, Express.js, MongoDB, and JWT authentication, with experience deploying applications through Vercel and Netlify. Currently pursuing a B.Tech in Computer Science (AI & ML).

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, React Router, Responsive Design, Single-Page Applications (SPA)

Web Development: RESTful APIs, API Integration, JWT Authentication, Email Verification, Performance Optimization, Cross-Browser Testing, Debugging

Backend: Node.js, Express.js, MongoDB

Cloud & Deployment: Vercel, Netlify, Cloud-Hosted Web Applications

Tools: Git, GitHub, Vite, Figma, Google Stitch, VS Code

EXPERIENCE

IIMaspirant.in — Web Developer | Hybrid

Jul 2026 – Present

- Established the first web presence for an ed-tech platform by designing and developing its official responsive website using React.js and Tailwind CSS.
- Translated complete UI/UX designs into responsive React components using Google Stitch and Tailwind CSS, creating a production-ready interface across screen sizes.
- Secured user registration and login flows by implementing JWT-based authentication and OTP email verification with Nodemailer.
- Built and deployed the application using React, Vite, Tailwind CSS, Clerk authentication, and React Router to deliver a cloud-hosted production website.

CodSoft — Front-End Development Intern | Remote

Feb 2025 – Mar 2025

- Shipped responsive, cloud-hosted single-page application features using JavaScript and React.js, delivering functionality for live use.
- Improved cross-browser reliability by testing across 3+ browsers—Chrome, Firefox, and Safari—and resolving 15+ UI bugs before deployment.
- Improved application responsiveness by debugging and refactoring 10+ React components to optimize page-load performance.
- Delivered 4+ UI features from Figma specifications by collaborating with the design team and implementing maintainable JavaScript and React code.

PROJECTS

CoinScope — Cryptocurrency Tracking Platform

coinscopee.netlify.app

- Delivered a responsive cryptocurrency tracking SPA using React.js and Tailwind CSS, validating the interface across 3 device breakpoints for consistent cross-device rendering.
- Enabled live cryptocurrency data by integrating the CoinGecko REST API to retrieve information for 50+ cryptocurrencies.
- Improved dashboard usability by designing and implementing 6+ interactive React components with consistent responsive layouts.
- Eliminated manual price-refresh actions by implementing automatic real-time price updates through refresh intervals.

Resumify — AI Resume Builder

resumify-airesumebuilderr.netlify.app

- Built a cloud-hosted React SPA with 2+ reusable components to support dynamic, real-time resume generation.
- Improved browser and device compatibility by manually testing the application across 3+ browsers and resolving rendering and layout issues.
- Reduced the resume creation workflow to under 5 minutes by streamlining the multi-step input-to-export process.
- Delivered a deployed, user-focused resume-building experience by prioritizing intuitive navigation, clean visual design, and usability.

EDUCATION

IPS Academy, Indore — Affiliated to RGPV, Bhopal

Bachelor of Technology in Computer Science (AI & ML)

Sep 2023 – Sep 2027

CERTIFICATIONS

Advanced React — Meta, offered through Coursera | Aug 2026

Credential ID: TAGZAOOSH1X3

Fundamentals of Java Programming — Board Infinity, offered through Coursera | Feb 2026

Credential ID: 6NY6HFE5OOTB
